

# Hungerford 2036

**H**ungerford is launching an exciting project – Hungerford 2036 – to guide the way our town and its surrounding area will evolve.

The Hungerford 2036 Project Team aims to identify how Hungerford wishes to develop over the next 20 years and document this vision in a Neighbourhood Development Plan which will:-

- Conserve and enhance the town and countryside
- Identify and address challenges facing our area now and in the future
- Ensure our town and its surrounding area is a thriving, attractive and welcoming place to live, work and visit.

Hungerford 2036 will demand a lot of work from us all and will keep the Project Team busy for at least the next two years. Everyone will be kept informed throughout this time and will be encouraged to contribute their ideas and opinions at various stages. Engagement and help from residents living or working in all parts of the town and its surroundings is vital to the success of the project. Contributions will be welcomed from the entire community, from all backgrounds and age groups.

Once the Plan is ready a local referendum will be held and more than half of those who vote must choose “yes” for the Plan to be finalised. If all goes well, the Plan would then become part of the planning framework for our area. This means it must be used by the local Planning Authority (West Berks) when making decisions.

More information can be found for now on the Town Council’s website although a dedicated Hungerford 2036 website will be set up shortly. If you would like follow and be kept informed about progress on the project please email [claire.barnes@hungerford-TC.gov.uk](mailto:claire.barnes@hungerford-TC.gov.uk).

## Your colourful local printer

We print: Business cards, stationery, leaflets, brochures, banners, wedding stationery, books, this Adviser magazine – *in fact anything you could possibly need!*
